

Postponed deadlines

Dear rugby friends

The Qufora Egmont Open organization follows the development of the Corona virus. We understand that many of you are insecure on what will happen with the pandemic in the near term. In Denmark new restrictions were implemented last week.

However, we are confident that the tournament will take place and when it does, we will have proper guidelines according to the policies of the authorities, all with due respect to the safety of the players, staff, officials and volunteers.

When we had to cancel the tournament in 2020, we refunded all your money, and we will do the same again if we need to.

The covid-19 situation in Denmark right now is that 80% of the population is fully vaccinated and kids from 5-11 years old are being offered vaccination as well. We expect that by April, Denmark is even more safe to travel to (subject to the development of the Omicron virus). [Read more here.](#)
